

# LIQUID E-NEWSLETTER

## **Sewer connections now available for scores of homes in Oakview, Marshland, Dillon areas; more on tap**

Sewer connections are now available for more than 120 homes in the Oakview, Marshland, and Dillon roads areas, as a result of a recent Hilton Head Public Service District (PSD) and Town of Hilton Head Island sewer extension project. PSD customers on Oakview Road, Sam Frazier Retreat, Freddie's Way, Rasta Drive, Sassafras Lane, Nazarene Road, Trinh Palace Way, Dianahs Drive, Chisolm Place, Ferguson Lane, Kids Way, and part of Dillon Road can now connect to sewer. Work also is continuing to provide sewer access on more Marshland Road side streets, including Allen and Pinefield roads, Jessica and Mackerel drives, William Way and Aiken Place.

The work is part of the Master Sewer Plan initiative and includes a commitment of approximately \$10 million on the part of the Town of Hilton Head Island for sewer mains; approximately \$3 million on the part of the PSD for new sewer lift stations and mains; and a \$3-million charitable campaign on the part of Project SAFE (Sewer Access for Everyone), a charitable fund of Community Foundation of the Lowcountry that provides grants for low- and moderate-income homeowners' connection costs.

The next phase of sewer extensions under this program will bring sewer mains to more than 30 different streets in the Squire Pope, Wild Horse, Mitchelville, Fish Haul and Baygall areas.

**Customers with any questions about sewer connections are urged to call the PSD at [\(843\) 681-5525](tel:843-681-5525) or email [info@hhpsd.com](mailto:info@hhpsd.com).**

**PSD at Hilton Head Middle School Career Day**

L.J. Bush, field services technician, and Pete Nardi, general manager, represented the PSD at Hilton Head Island Middle School's first-ever Career Day this week. We met with hundreds of students in grades 6-8 and talked about the PSD and careers in water/wastewater.

## PSD hosts USCB Osher Lifelong Learning Course

Pete Nardi led a USCB Osher Lifelong Learning course entitled "What's in Our Water?" discussing the PSD and emerging issues in water and wastewater. The group also was given a tour of the Recycled Water Plant. This is the second time we've provided an Osher course.

## NOTABLE EVENTS

### National Fix-A-Leak Week March 19-25

Are you ready to chase down leaks? Household leaks can waste more than 1 trillion gallons of water annually nationwide, so each year we hunt down the drips during Fix a Leak Week.

## **Drinking Water Week May 6-12**

For more than 40 years the American Water Works Association and its members have celebrated Drinking Water Week – a unique opportunity for both water professionals and the communities they serve to join together in recognizing the vital role water plays in our daily lives.

## **Imagine a Day Without Water October 10**

No water to drink, or even to make coffee with. No water to shower, flush the toilet, or do laundry. Hospitals would close without water. Firefighters couldn't put out fires and farmers couldn't water their crops.

Some communities in America already know how impossible it is to try to go a day without our most precious resource: Water.

Imagine a Day Without Water 2018 is the fourth annual day to raise awareness and educate America about the value of water.
